Notice of Request for Proposal:

The Witte Museum is requesting proposals under Request for Proposals (RFP) from prospective companies for the Brackenridge Park Parking Garage Expansion Project. If interested, please request plans and specifications with bidding instructions from Brady Haynes at 210.357.1914 or [bradyhaynes@wittemuseum.org](mailto:bradyhaynes@wittemuseum.org).

Scope of Work:

- The Brackenridge Park Parking Garage Expansion Project consists of the construction of one new level of parking on top of existing parking garage – steel framed with composite steel deck/concrete slab.
- Match existing cable barriers, add wire mesh screen panels to north and east elevations.
- Add galvanized metal panels to match existing, behind west and south cables.
- Extend fire exit stairs at each end to new level.
- Existing elevator will not be extended to new level.
- Add new light fixtures for new level – LED type.
- Eliminate portion of wire screen mesh panels on north wall to create a new pedestrian entrance at north end.
- Demo existing steel roof trellis on third level and relocate a portion of existing roof trellis to new ground level pedestrian entrance. Connect new entrance plaza with existing sidewalk.

The Witte will receive funding for the Project costs from the City of San Antonio 2017 Bond Program.
